### **TRIBUTE TO LT. DR. DHANRAJ SINGH** FOUNDER OF PSM Public School Educational Society (Regd.)

It is said "If you are planning for a year, sow rice; if you are planning for a decade, plant trees; if you are planning for a lifetime, educate people." This sums up the entire philosophy of the time and life of **Dr. Dhanraj Singh**, a visionary, who built the entire edifice of the PSM Public School Educational Society (Regd.), under which comes PMC College of Education and many schools. His profound qualities of enthusiasm, perseverance, vision and live networking created a springboard for many aspirants to mould their careers.

**Dr. Dhanraj Singh**, though born in an ordinary middle class family in Delhi, by dint of his hard work, rose to one of the top-ranking educationists. He held on to his dreams and converted them into reality. His relentless work drove him to success. He helped the students explore their own potential. He made them realize that education, hard work and commitment to the nation are the only means to get themselves employable and overcome poverty. He firmly believed, "Every human being has infinite potential. The role of an educator is to bring out the best in every individual and that of an educational institution to provide the best facilities and the right ambience."

The best tribute we can ever offer this architect of the PSM Public School Educational Society (Regd.), could be to emulate his ideals and work toward realizing his dreams. Let his vision, "TO MAKE EVERY MAN A SUCCESS AND NO MAN A FAILURE," inspire us to follow in his footsteps. God chose his company on 5/12/2022. This adorable and affable human being will be remembered by all of us on this day, year after year.

## CHAIRMAN'S MESSAGE

A school's magazine means a lot more than being a mere collection of articles contributed by the students of the college. It is an endeavor to channelize the immense power that today's young generation wields. It is an expression of their thoughts and opinions. It is the very identity of the college, metaphorically. And hence I, as the chairman of this prestigious institution feel humungously honored and privileged to forward this edition of "Srijan" before you.

We strive to establish a vibrant learning environment, where teachers and students are engaged in a collaborative partnership of expanding the horizon of their knowledge and skills through mutual effort. This was possible because of the outstanding dedication of the Principal of the college and the sincere efforts of the teachers. I extend my full support to all endeavors aimed at the advancement of the student community.

**Sh. Deepak Vijayan**

### The Choices You Make Design Your Life

The purpose of life is to live a life of purpose and the meaning of life is to make life meaningful. The worst days in our life can be most powerful in terms of the lessons we choose to learn from them. Bad times bring many blessings with them like the beauty of wisdom, the strength of character, invincible courage and deeper compassion. We are what we are, not because of the good times but because of the bad times we went through in our lives.

You must take responsibility for yourself and your environment and invoke the positive changes you desire the most. Every moment you are presented with the possibility of changing your future. Taking responsibility empowers you to feel in control of your destiny.

**DISCOVER YOUR PURPOSE :** Before taking any action you must first know (1) what you really want and (2) Why it is compelling for you.

**USE VALUES AS YOUR PERSONAL COMPASS :** The feeling of personal wholeness comes from the sense that you are fulfilling your values by your present behavior.

**WE ARE LIVING MAGNETS :** We attract in our lives the people circumstances and things that are in harmony with our dominant thoughts. And so whatever we give our energy attention and focus to unfolds in our experience.

**PERSONAL DEVELOPMENT PLAN :** Success fitness deep fulfilment and sustained happiness don't just happen. The best way to create spectacular results in the most important areas of your life is by creating a personal development plan ground in positive rituals.

**CLARITY :** Absolute clarity about what you want is the starting point of all great accomplishment. Clarity does not come to you. You have to go for it.

**TAP INTO THE POWER OF FOCUS :** By focusing on the result or outcome you desire you will come up with the more effective action plan and will ensure that you are consistently moving towards it. Focusing on things that matter is the secret to an extraordinary quality of life.

**DON'T MAJOR IN MINOR THINGS :** You must not mistake activity for productivity or movement for achievement. It is easy to get deluded.

To be completely complete as a person one who is inwardly aware and outwardly successful one must focus on mastery in all the four dimensions of life-physical mental emotional and spiritual And we must strive to make progress and achieve balance in all the areas of our life that matter to us the most.
